### County Permitting Guidelines

Film Permits are generally required throughout Miami-Dade County and each of its municipalities for commercial film, video or still photo shoots that are conducted on public property; that is, on roads and streets, sidewalks, or in parks, beaches or public buildings.

### **FilMiami.org offers one stop on-line permitting for Miami-Dade County, City of Miami, and City of Miami Beach facilities and properties, as well as for most other local municipalities**

Permits cost \$100.00 per each 28 production days. We do require a minimum of 24 hour notice for permits (Exceptions: Port of Miami, Miami International Airport, Miami-Dade Transit – permits need sometimes up to 14 days notice and are subject to approval), a certificate of insurance additionally insuring Miami-Dade County, or the appropriate municipality, for \$1 million of liability and specific information on locations, dates and times, budget information and any other special arrangements.

A Film Permit is not required for individuals filming or video taping only for personal or private use or for employees of print or electronic news media for "breaking news" events. Students and faculty filming exclusively for educational purposes don't require a film permit, however, we prefer that one is applied for (the permit application fee is waived if the student and project are verified by a school/professor). Also, Miami-Dade County does not require a film permit for shoots on private property (residential or otherwise). However, if you are filming in Unincorporated Miami-Dade County, on sidewalks or streets, or parking vehicles in swale areas, then those areas need to be permitted. Noise ordinances apply to all film permitting. A permit can not be issued in residential and certain other areas prior to 7:00am or after 11:00pm. Please check with the City of Miami and Miami Beach Film offices regarding the conditions for film/photo shoots in residential neighborhoods (see contact info below)
