The shooting of [Shah Rukh Khan's](#) next, the SFX extravaganza, Ra-1, is all set to commence from March 2010. The superhero project is to go on the floors in early March and the first phase of shooting will last for about a month. The location chosen is the sun and sand of Miami.

### **CHECK OUT: Shahrukh is a bad habit**

As per executive producer, Prashant Shah, founder, president and CEO of New Jersey based Bollywood Hollywood Productions, though it is a superhero film like SPIDERMAN and SUPERMAN but instead of the darker and grittier city like Gotham City, the location chosen is the sun and sand of Miami. Apart from the exotic location what drew Shah to Miami was the wonderful experience that he had in 2008, during the shooting of Tarun Mansukhani's DOSTANA.

As per Shah, while the shooting will be on locations in and around the city, the cast and crew will be based at the Doubletree Grand in Coconut Grove.

Must say its good news for all SRK fans and countless children who are anxiously awaiting this exciting offering from King Khan.
