Ra 1 is a film which stars the most amazing pair Kareena Kapoor and [ShahRukh Khan](#). This is a Super- Hero story and [the whole story](#) goes into a twist with a virtual world coming alive in it. ShahRukh Khan is a Video [game designer](#) and thus when he comes across Kareena (in [flesh and blood](#)) he falls in love with her and then he imagines her to be animated also.

According to reports pouring in the animated Kareena will be very much in focus and will occupy an important part in the film. The technology for the animation is going to be provided by Red Chillies SFX. According to sources, Kareena has already got a taste of animated films with the film 'Road Side Romeo', where she had lent her voice for the female character. As for ShahRukh, as all his friends know, he loves to play video games and can't resist playing on a play station when he sees one.

If reports are to be believed, then the shooting schedule which will soon be started, is going to be held in the most exotic locales of Miami USA. The entire concept of the Super Hero will be handled differently with bright backdrops and fresh environs, instead of the traditional dull and gloomy city back drops that used to be a permanent fixture on Super –Hero flicks earlier. We now believe the world is fast changing don't we?

okay priyanka had a lot of flops. Genelia is new. I don't know what ur talking about. But kareena is the best actress in the [industry](#). Know one can come close to her. And also she had hits like Jab We Met, 3 idiots (which is the biggest hit movie of 2010), Kambhakt Ishq, Mujhe kuch kehna hai, K3G and many more. Priyanka is a queen of flops. In one year she had like 3 or more flops. Just in one year that proves she sucks.

oh yeah also Golmaal 3 was a big hit. Go see on boxoffice india website kareena has always been the no. 1 actress or in the top 3 actress, but priyanka never made the list. how sad! That is because kareena is more successful at boxoffice than her and also more successful as an actress than priyanka.
